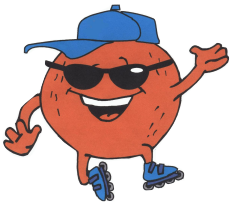
Yes, That's Me Officer!



When I went to get my driver's license renewed, our local motor-vehicle bureau was packed. The line inched along for almost an hour until the man ahead of me finally got his license.

He inspected his photo for a moment and commented to the clerk, "I was standing in line so long, I ended up looking pretty grouchy in this picture."

The clerk looked at his picture closely, and reassured him, "It's okay. That's how you're going to look when the cops pull you over anyway."

Service Now Heating

Helping 22 Homeowners by "GIVING AWAY" Furnaces For $941

WITH OFF-SEASON AIR CONDITIONING

If you qualify, local utilities may offer up to $650 in rebates towards your new system.

Dear Neighbor:
I have great news for your wallet if your furnace is over 12 years old. Allow me to explain...Every year, the months of January, February, & March can be slow for my business. I employ great people and want to keep them working during these long, slow months. That is why I've come up with a Win Win Situation for both of us.

Every year, the big manufacturers of furnaces & air conditioners guess how many to build to meet the demand. Of course, they're never exactly right. So, they always have some inventory that they must hold over until the next summer season. I went to one of these companies and contracted for the purchase of twenty-two Deluxe furnaces and air conditioners in the four most popular sizes used in Kane County. And, because of the quantity and time of year, I was able to buy them at drastically reduced prices.

They are brand-new Deluxe Models. They are NOT the seconds or "blems" or standard "builder" models. They are factory-fresh furnaces and air conditioners and have a full 10-year factory warranty.

How To Get A Furnace For Peanuts
If you are interested in a new heating/cooling system (but only if one of the four sizes I have will fit your house, of course), I am "giving" you the furnace and all I ask for is the $941 in labor & material costs for installation.

Perfect Fit For Your Home
I will come out and measure your home (and determine the availability of the proper size). Don't forget, I only have 22 matched Deluxe Systems in four sizes. When they are gone, this remarkable offer ends also. Just call 630-262-8484.

Absolutely No Obligation
After I completely explain the installation, there is absolutely no obligation. If you decide you don't want to take advantage of the spectacular savings... That's OK.

You Can Buy With NO Cash*
You don't even have to pay me right away. I have set up a terrific 0%* payment plan.

Fuel Efficiency Guarantee**
I'm so confident that you will save at least 25% on your heating and cooling bills (I'm projecting more like 30%), that I will pay you the difference for a year if you don't! I'll show you exactly how this works. If these heating and air conditioning systems were not among the best on the market, I couldn't afford to make such a promise.

Why This Offer Can't Last
I only have a few of each of the four sizes. When all of the air conditioners are sold and all the furnaces are "given" away, that's it. There are no more at this price. Call Bre now at (630)262-8484 to set up an appointment for your no-obligation survey.

Warmly,
Chris Carpenter

*With approved credit. Ask for Details. **With high efficiency upgrade.

Why Do I Exercise?

Why Do I Exercise? 'Tain't no mystery --
wanna have a good medical history.
Doctor told me exercise is great --
helps them blood cells circulate.
Great for the lungs, great for the ticker,
can't nothin getcha in better shape quicker.

Feels so healthy, feels so sweet,
pumpin my arms and flappin' my feet,
moldin' my muscles, firmin' my form,
pantin' like a pack mule, sweatin' up a storm.

Keeps me youthful, keeps me loose,
tightens my tummy and shrinks my caboose.
Beats bein' sluggish, beats being lazy --
Why DO I exercise?... Maybe I'm crazy!

Golfer Gets A Lesson!

A hack golfer spends a day at a plush country club, playing golf and enjoying the luxury of a complimentary caddy. Being a hack golfer, he plays poorly all day.

Round about the 18th hole, he spots a lake off to the left of the fairway. He looks at the caddy and says, "I've played so poorly all day, I think I'm going to go drown myself in that lake."

The caddy looks back at him and says, "It won't work. I'm sure that you *can't* keep your head down that long."

Supplemental Rules for Bowling

Just a reminder of some of the "rules" of one of our favorite indoor pastimes...bowling.

1) If you holler "overs!" before the ball passes the arrows, you get to throw the ball over, unless of course, you get a strike. In which case, you can renege on the "overs".

2) When your team is about 10 marks down in the 8th or 9th frame, you can invoke the rule "First Team Through Bowling Wins the Game", and your team still has a chance.

3) After a member of the opposing team bowls 4 strikes in a row, he/she must bowl the next 4 frames blindfolded. If he/she continues to strike, his/her shoelaces will be tied together for 2 frames.

4) When you leave the 10-pin and you know you can't make the spare, but another member of your team can, invoke the "Designated Bowler" rule.

5) After you have 4 splits in one game, you may say "Kings X" and take those 4 frames over. However, if you split on the 2nd time around, you accept it. After all, "Fair is Fair".

6) If your ball goes in the gutter and jumps back onto the lane, knocking dow pins, by golly, you get them! That's much harder than to knock them down the conventional way. Good bowling should be recognized.

Deaf Lady in Trouble

One day a lady was driving on the Highway. She frequently checked her speed gauge to make sure she stayed within the speed limit. However, when she looked into her rear mirror, much to her dismay, she saw a police car not far behind! And, to make matters worse, the police car turned on his flashing lights. She thought to herself, "Uh-oh, what have I done now? I'm not speeding. I'm not drinking. I have my seat belt on! I have kept up my license dues and everything!"

So, she pulled over and the police car pulled over to the side right behind her car. She drove her car slowly to a stop, slowly rolled down the window, and prepared for a ticket when she knew she didn't deserve it. A policeman walked up to her window, and spoke to her. The lady pointed to her ear and shook her head, meaning she was deaf. The policeman smiled slightly, and knowing sign language, signed back, "I know. I'm here to tell you that your horn is stuck."

Avoiding A Big Object

Driving to work, a gentleman had to swerve to avoid a box that fell out of a truck in front of him. Seconds later, a policeman pulled him over for reckless driving. Fortunately, another officer had seen the carton in the road. The policemen stopped traffic and recovered the box. It was found to contain large upholstery tacks.

"I'm sorry sir," the first trooper told the driver, "but I am still going to have to write you a ticket."

Amazed, the driver asked for what.

The trooper replied, "Tacks evasion."

Observations From Grandma!

Remember: Old folks are worth a fortune, with silver in their hair, gold in their teeth, stones in their kidneys, lead in their feet and gas in their stomachs.

I have become a little older since I saw you last and a few changes have come into my life.

Frankly, I have become a frivolous old gal. I am seeing five gentlemen everyday! As soon as I wake up, Will Power helps me get out of bed. Then I go see John. Then Charlie Horse comes along; and when he is here, he takes a lot of my time and attention.

When he leaves, Arthur Ritis shows and stays the rest of the day. He doesn't like to stay in one place very long, so he takes me from joint-to-joint. After such a busy day, I'm really tired and glad to go to bed with Ben Gay. What a life!

P.S. The preacher came to call the other day. He said at my age I should be thinking about the hereafter. I told him, "Oh, I do all the time. No matter where I am, in the parlor, upstairs, in the kitchen, or down in the basement, I ask myself, "What am I here after?"

If you boil a funny bone it becomes a laughing stock... That's Humerus

Answers: $597 - D; $598 - C; $599 - D;
$600 - A; $601 - B; $602 - B; $603 - D.

A Leisurely Drive

Two elderly women were out driving in a large car. Both could barely see over the dashboard. As they were cruising along they came to an intersection. The stoplight was red but they just went on through.

The woman in the passenger seat thought to herself, "I must be losing my mind, I swear we went through a red light."

After a few more minutes they came to another in intersection and the light was red again, and again they went right through. This time the woman in the passenger seat was almost sure that the light was red, but was really concerned that she could be mistaken.

She was getting nervous and decided to pay very close attention to the road and the next intersection to see what was going on.

At the next intersection, sure enough, the light was definitely red and they went right through. She turned to the woman behind the wheel and said, "Mildred! Did you know we just ran through three red lights in a row! You could have killed us!"

Mildred turned to her companion and said, *"Oh! Am I driving?"*

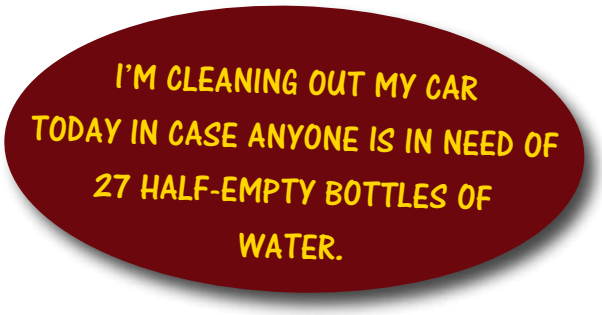
A Few Funnies!

"A man may be a fool and not know it...but not if he is married." *-H.L. Mencken*

"My mom said the only reason men are alive is for lawn care and vehicle maintenance." -Tim Allen



A Laugh A Minute

•We may take laughter for granted, thank goodness, but scientist are studying it to learn more about how the human brain functions. They've found it's a complex learned behavior that involves the same process as problem solving in which the brain produces a regular electrical pattern. Early studies with brain damaged patients showed that people with brain injuries couldn't distinguish what's funny from what's not, leading them to believe the cause was a dysfunctional brain wave pattern. One scientist said, "If we can figure our how the mind processes humor, then we'll have a pretty good handle on how it works in general."

•**Brainiac**: Dumb criminals may be dumb, but they can also be very polite. A robber holding up a convenience store in Nevada agreed politely to the store clerk's demand that victims were entitled to make one phone call. He was completely surprised when the police showed up and arrested him. DUH?

•"The juvenile sea squirt wanders through the sea searching for a suitable rock or hunk of coral to cling to and to make its home for life. For this task, it has a rudimentary nervous system. When it finds its spot and takes root, it doesn't need its brain anymore, so it eats it. It's rather like getting tenure." -*Daniel C. Dennett*

Core Values

Be Kind. . .
Caring. . .
Curious. . .
Giving. . .
and Respectful!

Shakespeare said:

I always feel happy, you know why?
Because I don't expect anything from anyone.
Expections always hurt... Life is short,
so love your life, be happy... and keep smiling.
Just live for yourself & before you speak, LISTEN.
Before you write, THINK. Before you spend, EARN.
Before you pray, FORGIVE. Before your hurt, FEEL.
Before you hate, LOVE. Before you quit, TRY.
Before you die, LIVE

Good for You. Great for Life.

The Brain

•"The brain is a wonderful organ. It starts working the moment you get up in the morning and does not stop until you get into the office." - *Robert Frost*

•Jail isn't much fun for anybody, but a man in Rhode Island REALLY hated it. He'd been sentenced to 90 days in jail, had loathed every second of it and had spent his entire incarceration plotting his jailbreak. On his 89th day behind bars, he escaped. Corrections officials caught up with him a few months later, and a judge sentenced him to 18 months prison time.

•Like many robbers before him, a hold-up artist in Modesto, California, used his thumb and finger to simulate a gun. Only problem with this brainless wonder is that he forgot to keep his hand in his pocket.

•"I took an IQ test, and the results were negative."

•"Ever stop to think, and forget to start again."

•"Madness takes its toll. Please have exact change."

•The human brain weighs about two and a half pounds. It consumes about 20 percent of the oxygen inhaled and emits about 25 watts of electrical power.
